When life happens, HAUGA follows

Built with maximum versatility in mind, the HAUGA series is made to make everyday life easier in any home, big or small — and in virtually any room. With a wide range to choose from, it's easy to adapt over time by adding, rearranging or splitting up units.

Thanks to the clever design, pieces placed side by side look naturally joined, enabling you to tailor combinations to fit space requirements.

The series covers flexible storage for living room, hallway, dining area — and beds, too, so you have complete solutions for the bedroom as well.

Every product is developed to make the best possible use of space, while balancing open and closed storage to fit your needs. Hide away clutter, display beautiful belongings, it's all up to you.

What about style? That's taken care of, too. A timeless combination of traditional design and modern functionality, it has its own distinct look that brings character wherever it goes.

Flexibility on your terms

Storage space is seldom about how much you have, but how you put it to use. Which happens to be a key benefit of the HAUGA series. Built for clever functionality and flexible use, it adapts and simplifies everyday life from the moment it comes out of the box.

All set for quick departures

An open wardrobe is an ideal solution for a grab-and-go start to your day. Accessible hangers and convenient top tray aside, the top edge is a great spot to hang prepped outfits — saving you even more time.

More space, less hassle

Besides swallowing up a mountain of stuff, multifunctional solutions like under-bed storage boxes help maximize the use of space.

The more the merrier

Sharing a distinct profile and look, HAUGA pieces go well on their own — and even better together. Placed side by side or apart, use them to build the mood of a room.

Small-space smartness

The clean look of sliding doors add an elegant touch. Without needing to swing doors open, they increase mobility (and can be left open for a more casual feel).
